Applied Vision Begins Major Headquarters Expansion

AKRON, OH – August 18, 2011 – Applied Vision Corporation has broken ground to expand the size of its world headquarters in Akron, Ohio. This addition significantly increases Applied Vision’s manufacturing capacity while making room for continued growth in research & development, engineering and application testing.

Applied Vision designs and manufactures application-specific food and beverage container inspection systems. Founded in 1997, the company has operated from its current headquarters since 2004. Additionally, the company maintains a network of regional and international service and support centers to meet the immediate needs of its customers worldwide.

“Increasing our development and production capabilities is a constant focus at Applied Vision,” said Amir Novini, President and CEO. “I have enjoyed watching Applied Vision develop into a center for machine vision innovation. As we project record growth, we have expanded to meet our customers’ needs.”

This phase of Applied Vision’s expansion is expected to conclude in the early fall. Visit www.appliedvision.com to learn more about smarter food and beverage container inspection.

About Applied Vision Corporation

Applied Vision Corporation designs and manufactures application-specific machine vision inspection systems for the packaging, food and beverage container and color printing industries. Applied Vision systems are sold worldwide through original equipment manufacturers (OEMs), value-added resellers (VARs), full-service distributors and company direct.
